

LEL BUILDING SERVICES, LLC

LEL Building Services, LLC Health and Environment Policy Statement

LEL Building Services is committed to providing building services that protect health without harming the environment. Protecting the health of people in buildings (employees and occupants) while being great stewards of the environment is a vital importance to LEL Building Services.

In fulfilling its commitment to protect health without causing harm to the environment, LEL Building Services will:

1. Comply with all relevant health and environmental legislation, approved codes of practice, and regulations.
2. Comply with environmental standards established by Green Seal and the Environmental Protection Agency (EPA) to use environmentally friendly processes, products, equipment and supplies in carrying out our business.
3. Educate and train all employees regarding their responsibilities for promoting health in spaces occupied by people through safe, environmentally sustainable cleaning practices.
4. Continuously seek to improve and promote healthy cleaning and environmental performance.
5. Encourage awareness and participation of all employees, building occupants and our community in health and environmental issues relative to green cleaning.
6. Reduce pollution, emissions, and waste.
7. Hold suppliers and contractors to environmental standards established by Green Seal and the EPA.
8. Monitor, review, and document the progress of LEL Building Services health and environmental performance on an annual basis.

The management of LEL Building Services endorses this policy and is fully committed to its implementation.
